Forecast for Sunday 28 Jul 2024

Weather: Areas of mist and fog, mainly in valleys affecting southern areas of the Park soon thinning and lifting. A warm and largely sunny day then follows, and staying dry.

Chance of cloud-free hill tops above 800m: Near 100%

Low Cloud and visibility: Good to very good views from the tops, with any limited cloud well above summits. Some poor visibility at low levels, mainly across southern areas at first on Sunday morning, with valley fog.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View
Warm and sunny, with excellent views. Appropriate sun protection essential, along with plenty of hydration.

Forecast for Monday 29 Jul 2024
Weather: Perhaps the odd patch of valley mist reforming, with a chance of obscuring some higher routes as it clears around dawn. Otherwise a fine day and becoming warm with spells of sunshine. These turning increasingly hazy as high based cloud invades from the southwest.

Maximum wind: Southerly 20-30mph in afternoon.

Chance of cloud-free hill tops above 800m: 80% at first, increasing to near 100%

Low Cloud and visibility: Early mist patches reducing visibility in the valleys. This lifting to give just the odd scrap of cloud obscuring routes above 600m during the morning. Otherwise good to very good visibility expected.

Temperature: **Valleys:** Plus 10 Celsius rising to Plus 22 Celsius
At 800m: Plus 7 Celsius rising to Plus 15 Celsius
Freezing level: Above summits
